

Contineo Health is an Epic Consulting Services firm focused on Clinical Workflow Optimization, Population Health, Quality Measures, Data Integration and Analytics. Contineo Health has proven experience with full life cycle Epic Healthy Planet implementations at several clients across the country. Our strategic advisory and certified Epic implementation teams help you define and realize your population health and value-based goals.

Contineo Healthy Planet Implementation Services:

Risk Stratification

- Existing and custom risk score models (LACE, HCC, CORE)
- Registry Metrics and SDOH Integration
- Community resource library integration (e.g. Aunt Bertha)

Wellness and Clinical Intervention Programs

- Identify and manage care gaps for individual patients and high risk populations
- Patient engagement through MyChart questionnaires, pre-visit screenings and video visits

Care Coordination and Outreach Workflows

- Streamlined workflows for ambulatory, inpatient, and community care
- Real time Clinical Decision Support
- Improved communication between care team members
- Utilize and trend documentation across encounters
- Healthy Planet Link to access care management tools and analytics to their affiliate CIN and ACO partners (not on Epic)

Data Integration and Visualization to Improve Care Processes

- Caboodle data warehouse for integration of internal and external clinical and claims data
- Radar dashboards for data visualization and workflow support
- Slicer Dicer on-demand self-serve analytics
- Data Governance and Quality using Cogito Clarity data model
- Roster Management Engine (Patient Matching)
- Track summarized data using custom KPIs and metrics
- Integration with external data through Care Everywhere and Happy Together to provide an integrated, holistic view of the patient's health

Manage Cost of Care and Maximize Positive Payment Adjustments

- Value-based care models and Quality measure compliance
- MSSP, HCC, HEDIS, STAR, Medicaid APM
- Commercial Payer measures

Healthy Patients!

Healthy Bottom Lines!

Healthy Planet is Epic's population health and accountable care module. It helps healthcare organizations define, understand, engage and track patient populations, as well as measure and improve care processes and outcomes over time.

Contineo's Healthy Planet Team

- Value Based Care Program and Project Managers, Coordinators and Analysts
- Physician Champions and Case Managers
- Epic Healthy Planet, Ambulatory and Security Implementation Consultants
- Epic Caboodle and Slicer Dicer Administrators
- Epic Clarity and RWB Report Writers
- KPI, BPA and Health Maintenance Builders
