

ContineoHealth Integrated Care Delivery Platform

Our team can assist with your FCC
Telehealth Grant and Telehealth Solution

The new CARES Act provides up to \$1M in grant funding to FQHCs, RHCs, and Community-Based Healthcare Centers to expand broadband and integrated care.

FCC's COVID-19 Telehealth Program is a \$200 million program, borne out of the Coronavirus Aid, Relief and Economic Security (CARES) Act that aims to grant providers up to \$1 Million in funding for improving connected health programs to patients in their homes and other remote locations. The funds can be used to pay for telemedicine and remote monitoring equipment, services and other connected care resources, all of which need to be integrated into the provider workflow (EMR).

We can help.

Contineo Health has developed an integrated care delivery platform in line with the CARES Act grant requirements for Health Care organizations and Physician Practices that meet FCC's guidelines.
